Steve:

These were my comments to the 7/17/15 1900-55. I think Beth took care of the Republic stuff and I think you took care of the Phillip Joseph stuff on the 7/31/15 1900-55. Do you have the corrected 7/17/15 1900-55?

Thanks

Gary Moore

All:

I have the following issues with this 1900-55:

1. Phillip Joseph's hours are not chargeable because all he did was transfer documents from his inbox to the substitute contract manager who was assigned at CB&I discretion.
2. Republic Invoices for Transportation:
 - a. The backups to these invoices (manifests) are duplicated as backup for other invoices (ie. 7470, 7479, 7474, 7067)
 - b. The tanker transportation hours going from CES to Blue Ridge vary widely and need to be evaluated. Also, I noticed that the drivers did not provide work tickets for each load that showed depart and arrival times (Arrive at CES, Depart CES, Arrive Blue Ridge, Depart Blue Ridge). How does the contract read on time (ie. when it starts and when it ends) It could be associated with cleanout but we don't have the driver work ticket logs. How are you determining the appropriateness of the hours?
3. I need to talk with the EPA Project Officer but I noticed that you guys do not report the other projects you are working on in your timesheets so that we can see when you reach OT. I did not pay much attention to that previously but I picked up on it while reviewing this one.
4. I noticed that I did not sign some DWO's that are included in the 1900-55. Do you not have those or were they not sent to me.

Thanks
